Video: Headphones: I, Fat Tony, am a cool cool video game character that is fun to be playing, in other games! I am the Black Knight in the game called Knight Sentence. My best friend from the game is the Robot Unicorn! These other characters are also in this game! We like to go around hunting down the purple guys! The Black Knight is one of the coolest characters in the Knight Sentence games. I am pretty fun to play, especially because I have a special sword that can be used in the game to cut down your enemies! Knight Sentence is a cool fantasy game that you can play on PC to iOS! I play the game on my Nintendo 3DS and find it really fun! It is a cool game to play, and it is a game where you have lots of fun while playing it. It is a 3D game, so you get to play it perfectly on the 3DS while on the go. You can also play it with other people! This also allows you to play it for a long time. The swords and weapons are also awesome! I like using my special sword that can be used to move around quickly in the game. Another fun thing about this game is that it is very addicting, and that is why it is so fun to play. When I first started playing this game, I went to the tavern each day and played the game every day. It is a fun game to play! If you would like to download the game, you can get it directly from the Nintendo website. It is a 3D game, and it is the same one that I, Fat Tony, play on the Nintendo 3DS. The game is free, and you can play it as often as you like. It is a cool game to play! [Subscribe](#)► [Playlist](#)► [Twitter](#)► [Facebook](#)► Outro: "Octa"◆

### **What's new:**

**is the continuation of the immensely popular action series Fruit Ninja. You will move through the levels like never before using the VR mechanics and the Vive wands. The game continues where the first one left off. Get ready to be gripped and squealed in as you wield your virtual blade through 16 new worlds of action. In each level you'll be faced with the usual fruity foes, and in some levels you'll face a more skill based approach, such as the flip and flick art dealer: Ally Disguisez. (Pactin's 3D Ninja Kitchen has been added). Do you dare to face the levels as they were meant to be faced: fully-loaded with game overs and the creative excuses thrown at you? Or will you opt for casual fashion, like in Fruit Ninja VR? The short version: we had a bit of a mix-up over an order, and we made a lot more holes in the walls. We're also fairly sure it was intentional, but we might have been cursed by the mischievous spirit that resides somewhere in the deepest and most intimate reaches of Limbo's caverns. We couldn't get the order right and we told the dude to take it easy. He cried like a 4 year old from a savage, derictive crime committed against his inferiors. We ended up doubling the price for the first 10 minutes of the game. THATS 'UT' THE EVEILS YOU OPERATE UNDER! NEXT TIME YOU WILL ORDER THE WHOLE**

I am really enjoying the PS VR I received for Christmas and I have been playing Oddworld: Stranger's Wrath recently. But I keep thinking about how cool it would be to have a home VR so I could play all the games I want even when I don't play them at home. If I can borrow some money from my parents, I will be having the Daydream View in a month.
